

# Monitoring the Water SDG

## An emerging framework

Swiss Water Partnership  
December 1, 2015  
Rick Johnston, WHO  
[johnstonr@who.int](mailto:johnstonr@who.int)

# From MDGs to SDGs

## MDGs

- Total of 8 goals, 21 targets
- 1 target under “Environmental Sustainability” goal
- Two core indicators: drinking-water and sanitation
- Primarily relevant to low income countries
- Monitoring by JMP, primarily using household surveys

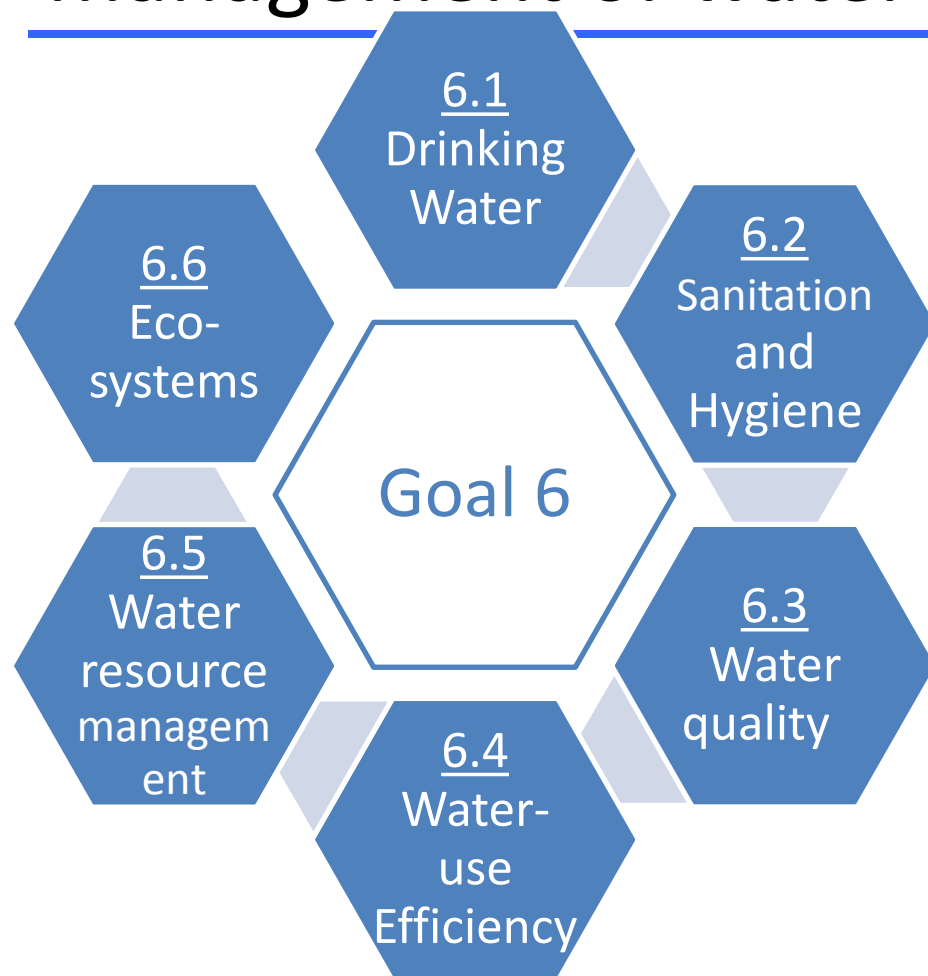

## SDGs

- Total of 17 goals, 169 targets
- 8 targets under “Water and Sanitation” goal
- Twelve core indicators, many sub-indicators
- Relevant to all countries
- Monitoring by national authorities, feeding into regional and global reports

# 17 SDGs - 169 targets

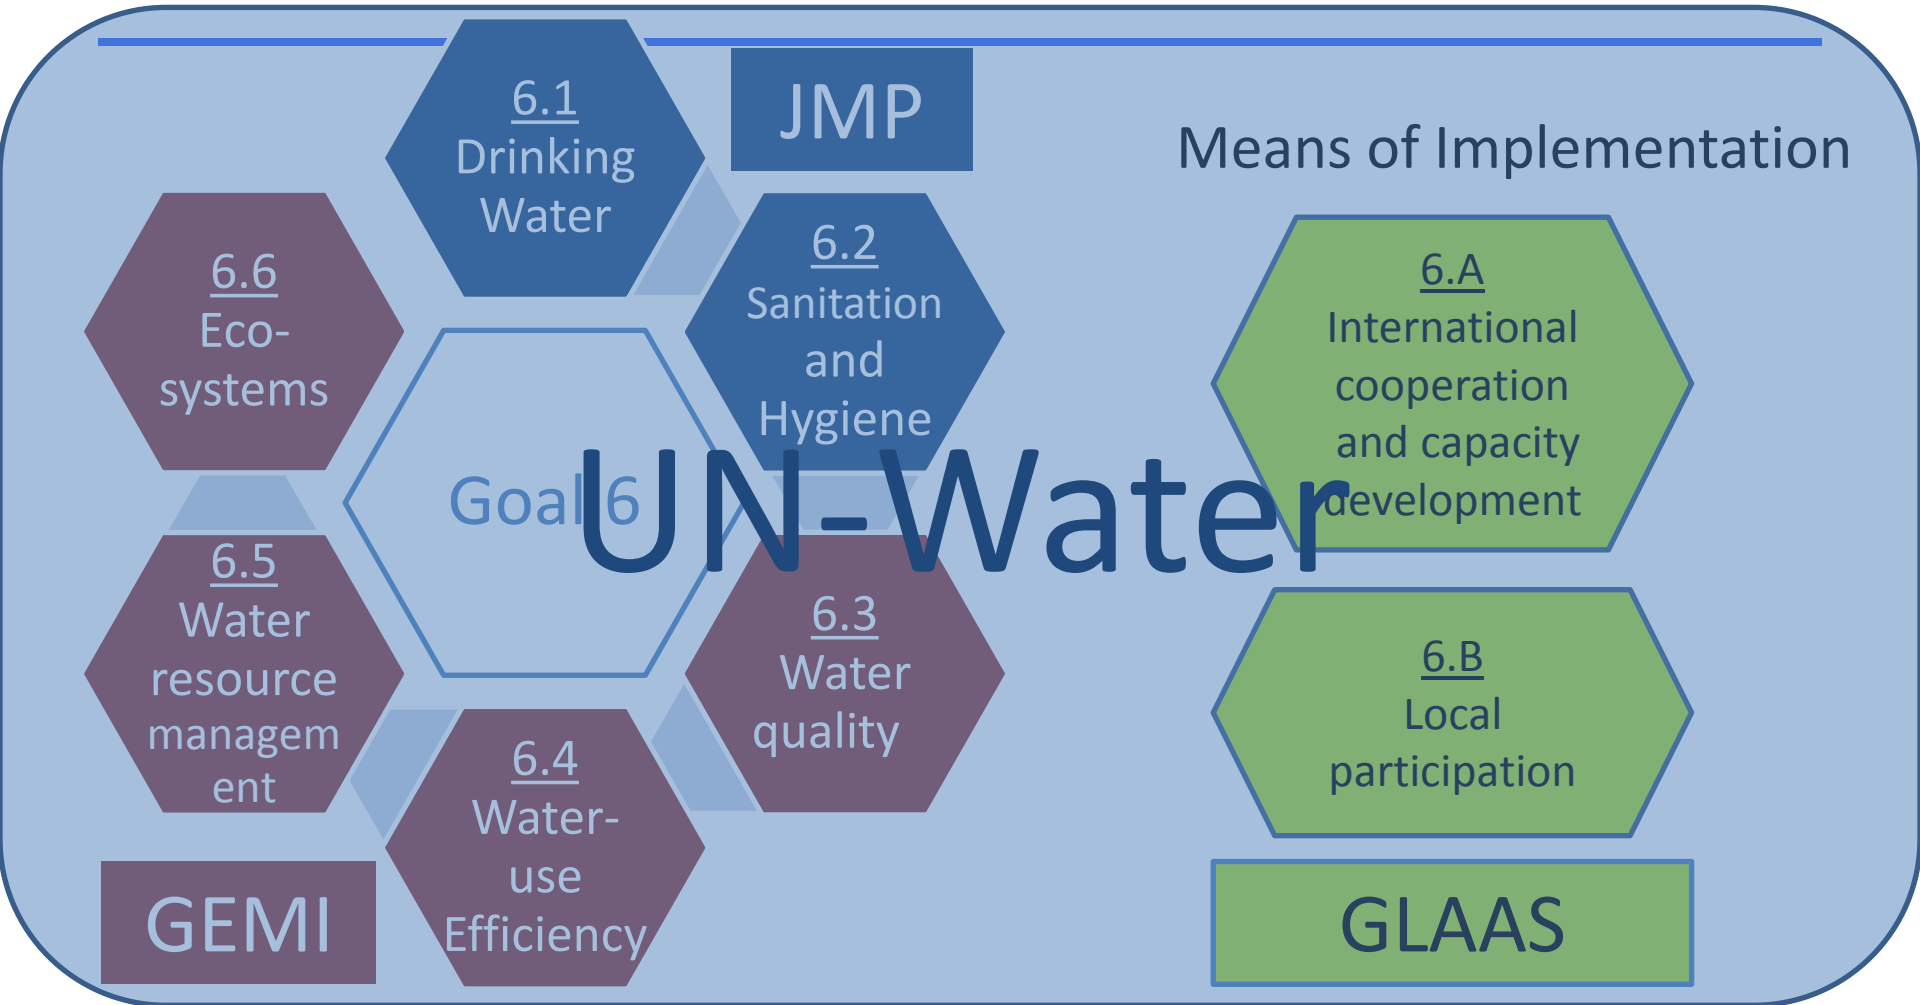

# Goal 6: Ensure availability and sustainable management of water and sanitation for all

## Means of Implementation

# Goal 6: Monitoring initiatives

# Inter Agency Expert Group on SDG Indicators

## Membership

- 28 member states (plus observers)
- Statistical experts from international agencies (MDG IAEG+)
- Regional commissions, academia, civil society
- UN Statistical Division as Secretariat

## Expected outputs by March 2016

1. Integrated statistical framework for monitoring of the SDGs
2. Assessment of inter-linkages between target indicators
3. Criteria for selection of global indicators
4. Final list of global indicators

→ Annual SDG Progress Report

# 12 proposed indicators for Goal 6

Indicator	Lead agencies	Indicator (brief title)	
6.1.1	WHO/UNICEF JMP	Safely managed drinking water services	
6.2.1	WHO/UNICEF JMP	Safely managed sanitation services	
6.2.2	WHO/UNICEF JMP	Handwashing in the home	
6.3.1	WHO, UN-Habitat	Safely treated wastewater	
6.3.2	UNEP	Ambient water quality in water bodies	
6.4.1	FAO	Change in water use-efficiency over time	
6.4.2	FAO	Level of water stress	
6.5.1	UNEP	Degree of integrated water resource management implementation	
6.5.2	UNECE, UNEP	Transboundary basin areas with operational arrangements for cooperation	
6.6.1	UNEP	Change in <del>wetlands extent</del> <b>fresh-water ecosystems</b> over time	
6.A	OECD, WHO, UNEP	Water and sanitation ODA as part of coordinated spending plans	
6.B	WHO, UNEP	Participation of local communities in water and sanitation management	

# WASH and other targets

---

- 1.4  Access to basic services for the poor  
Household access to basic drinking water, sanitation and hygiene
- 2.2  End malnutrition
- 3.3 Combat water-borne diseases
- 3.8  Universal health coverage  
Household WASH proposed as a tracer intervention
- 3.9  Deaths and illness from water pollution
- 4.a  Education facilities  
Basic drinking-water, sanitation and hygiene facilities in schools
- 11.1  Safe and affordable housing and basic services (urban)
- 11.5  Reduce deaths from water related disasters

# Target 6.1: Drinking water

---

*By 2030, achieve universal and equitable access to **safe** and affordable drinking water for all*

## 6.1.1: Population using safely managed drinking water services

Definition: Pop. using an improved drinking water source which is:

- located on premises, **Accessibility**
- available when needed, and **Availability**
- free of faecal and priority chemical contamination **Quality**

Lead: WHO/UNICEF Joint Monitoring Programme

# Monitoring drinking water

Criterion	Household Surveys
Availability	Now: What people report using New? Is water always available from your main drinking water source?
Accessibility	Now: What people report using New? Has there been any time in the last month when you have not been able to access water when needed?
Quality	New: Water quality testing in household surveys

Affordability?

# Target 6.2: Sanitation and hygiene

---

*By 2030, achieve access to adequate and equitable **sanitation** and hygiene for all, and **end open defecation**, paying special attention to the needs of women and girls and those in vulnerable situations*

## 6.2.1: Population using safely managed sanitation services

Definition: Pop. using an improved sanitation facility which is:

- not shared with other households and where
- excreta are safely disposed in situ or
- transported and treated off-site

**Accessibility**

**Quality**

Lead: WHO/UNICEF Joint Monitoring Programme

# Sanitation Chain: evidence, action and monitoring

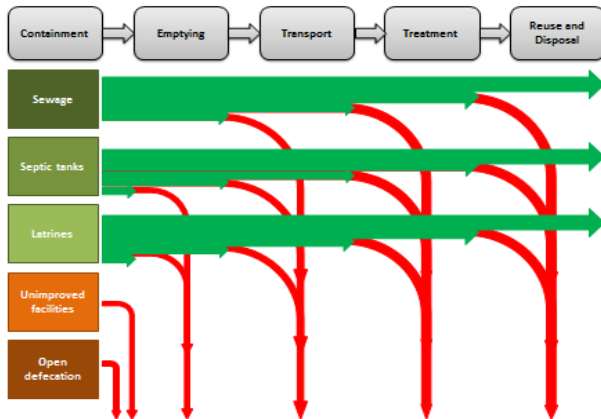

## Burden of Disease

prevalence and impact in  
low- and middle-income countries

World Health Organization

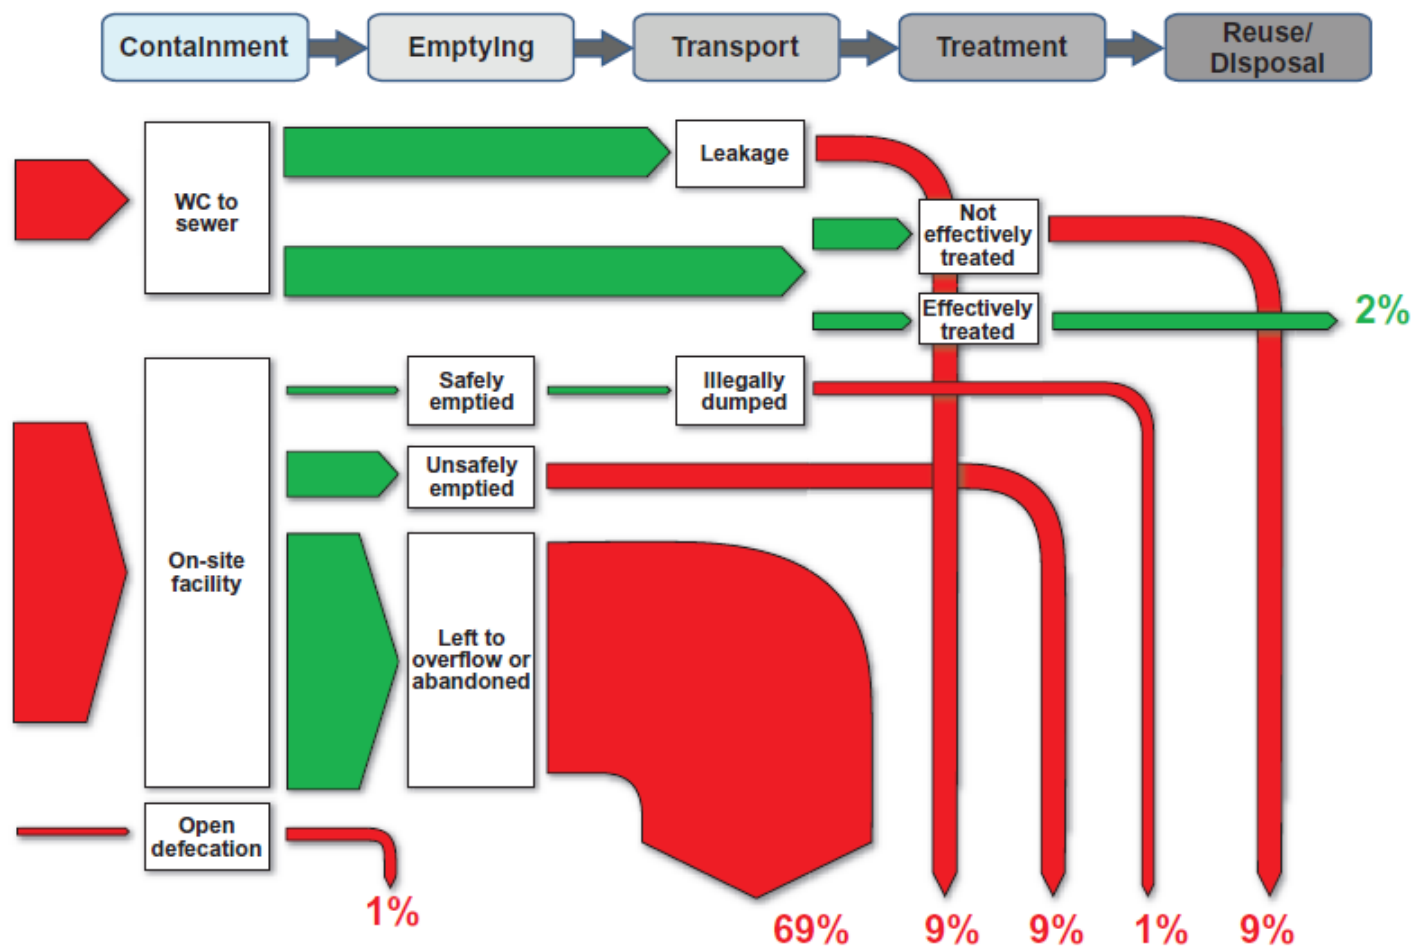

## SDG-2015 Monitoring

## Global Guidelines

# Sanitation Chain Monitoring: Dhaka

# Target 6.2: Sanitation and **hygiene**

---

*By 2030, achieve access to adequate and equitable sanitation and **hygiene** for all, and end open defecation, paying special attention to the needs of women and girls and those in vulnerable situations*

## 6.2.2: Population with handwashing facilities with soap and water at home

- Standard question in MICS and DHS since 2009
- Observation by survey teams
- Data available from 50+ countries

**Accessibility**

**Availability**

Lead: WHO/UNICEF Joint Monitoring Programme

# Target 6.3: Water quality

---

*By 2030, improve **water quality** by reducing pollution, eliminating dumping and **minimizing release of hazardous chemicals** and materials, halving the proportion of untreated **wastewater** and substantially increasing **recycling and safe reuse** globally*

## 6.3.1: Percentage of wastewater safely treated

Lead: WHO and UN-Habitat (GEMI)

## 6.3.2 Percentage of water bodies with good ambient water quality

Lead: UNEP, drawing on GEMS/Water (GEMI)

# Monitoring 6.3 (WHO, UN-Habitat)

---

## 6.3.1. Wastewater

- Ratio: safely treated / total
- Multi-sectoral
  - Domestic (sewage + faecal sludge)
  - Hazardous industrial wastes (point sources)
- Data from:
  - JMP (domestic waste)
  - National inventories of industries (hazardous wastes)

## 6.3.2. Ambient WQ

- Key water bodies
- Water Quality Index
  - Total dissolved solids
  - Dissolved O<sub>2</sub>
  - Dissolved inorganic N
  - Dissolved inorganic P
  - *E. coli*
- Data from GEMS/Stat (in situ and modeled), OECD, remote sensing

# Target 6.4: Water scarcity

---

*By 2030, substantially increase **water-use efficiency** across all sectors and ensure sustainable withdrawals and supply of freshwater to address **water scarcity** and substantially reduce the number of people suffering from water scarcity*

6.4.1: Percentage change in water use efficiency over time

6.4.2: Level of water stress

Lead agency: FAO (GEMI)

# Monitoring 6.4 (FAO-AQUASTAT+)

---

## 6.4.1. Efficiency

- Ratio: value added to volume water used
- Change over 3-5 year period
- Multi-sectoral
  - Agricultural (\$)
  - Industrial (\$)
  - Energy (MWh)
  - Municipal supply (NRW)
- Data from AQUASTAT, World Energy Outlook, IB-NET ...

## 6.4.2. Water stress

- Ratio: total freshwater withdrawn to total renewable resources
  - Reserving environmental water requirements
- Multi-sectoral
  - Agricultural
  - Industrial
  - Municipal supply
- Data from national sources

# Target 6.5: Water resources management

---

*By 2030, implement **integrated water resources management** at all levels, including through **transboundary cooperation** as appropriate*

6.5.1: Degree of integrated water resources management (IWRM) implementation (0-100)

Lead agency: UNEP (GEMI)

6.5.2: Percentage of transboundary basin area with an operational arrangement for water cooperation

Lead agencies: UNECE, UNEP and UNESCO (GEMI)

# Monitoring 6.5 (UNEP+)

---

## 6.5.1. IWRM implementation

- Composite indicator
  - Policies
  - Institutions
  - Management tools
  - Financing
- Equal weighting, score 0-100
- Data from national surveys completed by ministries

## 6.5.2. Transboundary

- Proportion of surface area of transboundary basins that have an operational arrangement for cooperation
  - Operational: regular meetings are held
- Data from UNECE water convention, Transboundary Water Assessment Project...

# Target 6.6: Water-related ecosystems

---

*By 2020, protect and restore **water-related ecosystems**, including mountains, forests, wetlands, rivers, aquifers and lakes*

## 6.6.1: Percentage of change in water-related ecosystems over time

Lead: UNEP supported by the Convention on Biological Diversity, and the Ramsar Convention on Wetlands (GEMI)

# Monitoring 6.6 (UNEP+)

---

- Percentage of change in water-related ecosystems over time
  - Wetlands, forests and drylands
    - Wetlands: marshes, fens, swamps, ponds, lakes, rivers, aquifers...
- Extent, Quantity, Quality, Status
- Data from ground data + Earth Observations
- Reporting on UNEP-Live platform

# Coordinated monitoring for SDG 6

## SDG 6 Reporting Team

Tasks: Coordinating country-level interventions and SDG 6 analysis

### GEMI Coordination Team

Tasks: Coordination, communication, and outreach

Lead: UN-Water Technical Advisory Unit

Target Team  
6.1, 6.2

Lead: JMP

Target Team  
6.3

Lead: WHO,  
UN-Habitat

Target Team  
6.4

Lead: FAO

Target Team  
6.5

Lead: UNEP

Target Team  
6.6

Lead: UNEP

Target Team  
6.A, 6.B

Lead: GLAAS,  
OECD

Provides technical and methodological support

Report and provide feedback

**National Focal Points and Inter-sectoral Monitoring Teams**

# 12 proposed indicators for Goal 6

Indicator	Lead agencies	Indicator (brief title)	
6.1.1	WHO/UNICEF JMP	Safely managed drinking water services
